A dense, colorful smoke grenade for marking, simulation, and spectacular visual effects!

The **ENOLA GAYE CM75 Cloud Maker smoke grenade** is designed to generate an impressive volume of colored smoke in record time. The **CM75 Orange** model diffuses a thick, vivid and persistent smoke, ideal for tactical exercises, military simulations, airsoft or paintball training, as well as for visual effects at events.

- **Model** : CM75 Cloud Maker
- **Brand** : Enola Gaye
- **Color** : Orange
- **Broadcast duration** : ~180 seconds
- **Smoke Volume** : Very Dense / Large Format
- **Ignition Type** : Pin (Hand System)
- **Use** : Airsoft, military simulation, fireworks displays, signaling
- **Dimensions** : 7.5 cm (diameter) x 18 cm (height)
- **Weight** : Approx. 700 g
- **Safety** : CE approved product - Do not use in an enclosed space

The **Cloud Maker** series was designed to meet the needs of defense professionals, security services, event organizers or airsoft enthusiasts looking for **strong visual coverage capacity** . The CM75 model offers one of the longest diffusion times of the ENOLA GAYE brand, with a **wide and stable projection** , even in open spaces.

Thanks to its **pin trigger system** , activation is fast, reliable and secure. This model is one of the most powerful in the ENOLA GAYE range with a massive smoke emission for approximately **180 seconds** .

Its orange smoke is **perfectly visible** in all conditions, including natural or urban environments, which makes it a strategic choice for **marking areas** , **simulating military smoke** , **distress**

signals or **special video and photography effects** .

The reinforced aluminium body and British manufacturing quality ensure consistent performance and confident use.

Safety instructions

Once lit, the CM75 does not produce a flame. The case remains cool enough to handle with gloves.

CAUTION: Hot gases, sparks, or ash may be emitted during ignition or operation. If you plan to handle the appliance during operation, wear protective gloves and eye protection. Otherwise, pull the cord to ignite the appliance, then immediately place it on a non-flammable surface, maintaining a safety distance of 2 meters. Follow all instructions and warnings on the product label. For outdoor use only.
