High voltage power and compactness for your demanding drones and RC vehicles.

The **Gens Ace 1000mAh 45C 11.4V HV LiPo battery** offers **high energy density** and a higher **nominal voltage (** 11.4V) for increased performance . Its compact size and **Deans T connector** make it ideal for FPV drones, helicopters , RC planes and radio -controlled cars requiring stable and powerful power .

- **Brand** : Gens Ace
- **Type** : LiPo HV (High Voltage) battery
- **Capacity** : 1000mAh
- **Rated voltage** : 11.4V (3S1P)
- **Discharge rate :** 45C
- **Main connector** : Deans T
- **Dimensions** : 102 x 20 x 17 mm
- **Weight** : 76g
- **Applications** : FPV Drones , Helicopters, RC Airplanes , RC Cars

Designed with **high voltage (HV**) LiPo cells , this battery allows charging up to 4.35V per cell **, providing** more autonomy **and a more stable output** voltage . It is particularly suitable for applications requiring **instant power** , such as FPV drone racing or aerobatic figures in model aircraft .

Thanks to its **45C discharge rate** , it ensures a fast and constant response, even under the most intense demands. Its light weight of 76g and its reduced dimensions (102 x 20 x 17 mm) facilitate its integration into confined spaces.

Gens Ace 's **advanced manufacturing technology ensures** increased longevity **and optimum** safety , **even under** heavy use . The Deans T connector **ensures a reliable** connection and low electrical resistance , contributing to maximum performance .
