The essential Ultrair gas now in high power for winter games

For pistols with metal slides and GBBR replicas. Recommended for late autumn and early spring games, this 164 psi* orange gas meets all requirements.

Remember to use your equipment responsibly and consider the limitations of your weapons and magazines. To help you choose the right gas for your equipment, this gas has been tested over a wider temperature range, as indicated in the handy temperature and pressure range chart on the back of the product.
