Light up your BBs with a multicolored trajectory reminiscent of the mythical Bifrost of Norse mythology!

The Bifrost BT features a tracer, an 11-color flame mode, a sniper mode, and a built-in chronograph for testing BB performance. You can now configure the flamethrower's color via the app via Bluetooth. Its innovative design and cutting-edge technology make it the ideal accessory for airsoft players.

Product Features:

1. Connect Bluetooth to phone: Use AceSoft app to detect speed function/setting of LED flame function.
2. The flame effect depends on the density of the gas fired by airsoft. The flame effect will be more pronounced if the gas density increases.
3. Sniper Mode: Hidden BB trail to reduce your exposure in the game.
4. Supports standard white BBs in RGB LED flame mode and red and green tracer BBs.
5. Intelligent power control: The device automatically goes into sleep mode after 5 minutes of inactivity. It turns on again when motion is detected.
 - Bifrost muzzle flame effect.
 - Custom flame colors on AceSoft app.
