## Robust and modular GBB Hi-Capa: the standard version without Optic-Ready or compensator.

Gas Blowback Hi-Capa replica designed for players looking for a reliable, lightweight and easily customizable base.

- **Operation** : Gas Blowback (GBB).
- **Length** : 20 cm
- **Barrel length:** 9.5 cm
- **Weight** : 910 g.
- **Cylinder head** : CNC aluminum (standard version, not Optic-Ready machined).
- **Structure** : reinforced polymer frame.
- **Internals** : MIM steel parts for durability.
- **Test patterns** : front and rear fiber optics.
- **Rail** : Lower Picatinny for lamp/laser.
- **Controls** : ambidextrous magazine ejection.
- **Compatibility** : standard Tokyo Marui Hi-Capa parts.

The standard version of the Vanguard 4.3" offers the essential Arcturus performance without Optic-Ready pre-machining or compensator, for those who prefer a simple and modular base.

### Construction and robustness

The **CNC-machined aluminum** slide ensures natural recoil and high strength, while the **polymer frame** keeps the weight down to 910g. **Internal MIM steel components** guarantee durability and resistance to the repeated stresses of GBB operation.

### Ergonomics and controls

The ergonomic grip and **fiber optic sights** facilitate rapid target acquisition. The **left-handed adjustable magazine release** improves ergonomics for all types of players, and the lower Picatinny rail allows for the addition of tactical accessories.

**Compatibility and customization**

Designed to be compatible with most **Tokyo Marui Hi-Capa parts** , this version allows for the installation of standard inner barrels, valves, springs, and magazines to adapt the replica to the needs of play or competition. The absence of Optical-Ready features leaves room for custom machining for advanced users.

**FAQ - Questions/Answers**

**Is the replica delivered ready to use?**

The replica is supplied without gas or BBs; you will need to provide GBB compatible gas and BBs for operation.

**Why choose the version without Optic-Ready or compensator?**

This version offers a lighter and simpler base, ideal for players who want to choose their own machining or compensator type and keep an original cylinder head.

**Is the Vanguard 4.3" compatible with Tokyo Marui Hi-Capa parts?**

Yes, it is designed to accept most standard Tokyo Marui Hi-Capa parts and magazines.

**What maintenance precautions are necessary for an Arcturus GBB?**

Lubricate the breech and valve, check the seals for leaks, use a gas suitable for the ambient temperature and regularly clean the barrel to maintain accuracy and reliability.
