Compact Hi-Capa with compensator and ARS-1 red dot included.

The **ARCTURUS Hi-Capa 4.3 Vanguard Comp GBB** is a **gas-powered airsoft pistol** designed for performance and rapid target acquisition. Equipped with a threaded compensator and an **ARS-1 micro red dot** sight mounted directly on the slide (optics ready), it offers stability, accuracy, and advanced compatibility with Hi-Capa parts.

- **Type:** GBB (Gas Blowback) airsoft gun
- **Platform:** Hi-Capa 4.3
- **Optics: ARS-1** micro red dot included
- **Bolt:** Metal optics ready with fiber optic sights
- **Compensator:** Integrated compensator with functional vents
- **Compatibility:** Platform compatible with standard Hi-Capa parts
- **Structure:** 10 internal **MIM** steel parts
- **Control:** Ambidextrous magazine release
- **Handle:** Textured reinforced nylon fiber
- **Length:** 22.5 cm
- **Length:** 9.5 cm
- **Weight:** 935 g (965 g with red dot)
- **Gross weight:** 1.184 kg

A Hi-Capa platform optimized for performance

The **ARCTURUS Hi-Capa 4.3 Vanguard Comp GBB** is based on the renowned Hi-Capa platform, adding features designed to improve stability and rate of fire. Compact and well-balanced, it's ideal for players seeking a dynamic and accurate **airsoft** replica.

Integrated compensator for better control

The front of the replica incorporates a **compensator** with functional vents. These openings direct gases upwards during firing, helping to reduce slide muzzle rise and stabilize the replica during rapid fire. The compensator is perfectly aligned with the outer barrel, providing a clean aesthetic and consistent performance.

ARS-1 red dot mounted directly on the slide

The **optics-ready** slide is machined to directly accept the **ARS-1 micro red dot sight** . This direct mounting reduces the sighting height and improves target acquisition speed. The assembly also allows for natural **co-witness** with **fiber optic sights** .

Reinforced internal construction

The replica incorporates **ten internal parts made of MIM (Metal Injection Molding) steel** to improve the robustness of the mechanism. This design reinforces the components subjected to the stresses of the **Gas Blowback** system and ensures excellent reliability during regular use.

High compatibility for customization

The **Vanguard Hi-Capa 4.3** was designed with **high compatibility with standard Hi-Capa parts** . This architecture facilitates upgrades and allows players to easily customize their replica with common aftermarket parts.

Improved ergonomics and control

The textured, **reinforced nylon fiber** grip provides excellent handling and improves control during operation. The **ambidextrous magazine release button** allows for comfortable use by both right- and left-handed users.

- **Platform:** Customizable Hi-Capa 4.3
- **Optics:** ARS-1 micro red dot included
- **Cylinder head:** Metal optics ready
- **Technology:** Realistic Gas Blowback System
- **Materials:** MIM steel and SEFP polymer

FAQ

Is the red dot sight included with the replica?

Yes, this version comes with an ARS-1 red dot microphone.

Is the replica compatible with standard Hi-Capa parts?

Yes, the Vanguard model was designed to offer high compatibility with standard Hi-Capa parts, facilitating upgrades and customization.
