Magnificent airsoft replica of the M870 gas-powered rifle, licensed by Strike Industries.

Gas replica inspired by the Remington M870, combining realism, robustness and accessory compatibility.

- **Manufacturer** : Golden Eagle, distributed by EMG
- **Operation** : Integrated gas tank
- **Length** : 470 mm
- **Internal barrel** : 170 mm
- **Firing modes** : burst of 3 or 6 balls per cycle
- **Magazines** : Standard shotgun cartridges (30 BBs) included
- **Handguard** : VOA M-Lok aluminum, 10 M-LOK slots
- **Mounting** : aluminum barrel clamp with Picatinny rail
- **Mounting** : QD mount, integrated front and rear sights
- **Stock** : Adjustable M4 type
- **Accessories included** : shell magazine(s), 6-slot aluminum cartridge holder, BB magazine

This M870 Strike Industries version retains the ergonomics and aesthetics of tactical pump-action shotguns while maintaining an easy-to-use and easy-to-maintain gas mechanism.

Designed for the player seeking a compromise between realism and personalization, the replica combines an aluminum VOA M-Lok handguard, a barrel flange with Picatinny rail and an integrated aluminum cartridge holder.

Performance and operation

Gas -powered with a removable reservoir for easy maintenance. **Burst firing modes of 3** or **6 BBs** per cycle offer a firing experience similar to an airsoft combat shotgun. The system accepts standard shotgun-type cartridges (30 BBs), and the aluminum cartridge holder allows for up to 6 cartridges to be kept within easy reach.

Ergonomics and modularity

VOA M-Lok aluminum handguard with 10 M-LOK accessory slots. The aluminum barrel flange incorporates a Picatinny rail for optics or lasers. Adjustable **M4** -style stock for quick terrain adaptation. QD sling attachment points.

Compatibility and evolution

Based on a clone of the benchmark Gas M870, the internal mechanics are upgradable and compatible with numerous replacement parts inspired by the TM standard. The presence of a removable gas tank facilitates maintenance and replacement operations.

Safety and maintenance

Empty the gas tank before any extended storage and regularly clean the barrel and hop-up. Comply with local laws (sale to adults only, on-site use permitted). Use only appropriate gas and BBs to minimize wear.

Remember not to leave the replica in the sun during periods of high heat, as this could cause irreparable damage.

FAQ

Q: What accessories are included with the replica?
A: Supplied: 1x M870 gas shotgun, 1x BB loader, cartridge shells supplied and 6-slot aluminum cartridge holder.

Q: What is the length of the replica and the inner barrel?
R: Total length 470 mm and internal barrel 170 mm.

Q: What type of cartridges and capacity?
A: Standard shotgun cartridges containing 30 BBs each per cycle, and integrated cartridge holder that can hold 6 cartridges.

Q: Can I mount a scope or a red dot sight?
A: Yes, the barrel flange has a Picatinny rail for optics and accessories.

Q: Is the replica compatible with internal upgrades?
A: Yes, the mechanics are cloned from the TM Gas M870 and can receive compatible internal parts for improvements.
