Realistic performance and competitive modularity: a modern, lightweight P80 ready for CQB.

A high-performance, reliable and realistic pistol designed by Double Eagle.

Features:

- Blowback Gas Operation
- JDG Polymer80 P80 PFS9 licensed
- RMR ready
- Innovative lightweight polymer frame
- Aluminum slide
- Weight: 800g
- Length: 186 mm
- Ergonomic molded polymer handle with non-slip texture for comfortable handling
- Integrated Picatinny accessory rail for mounting a light or laser
- 30-round magazine

A pistol designed for the field: balance of weight/strength, immediate ergonomics and accessory compatibility - ready to receive your upgrades.

Whether you are looking for a replica for CQB, tactical training or local competition, the **P80 PFS9 Double Eagle** positions itself as a reliable and customizable base.

Detailed presentation and technical points

The Double Eagle **P80 PFS9** features the Polymer80 design with a **CNC-machined aluminum slide** for a metallic feel while maintaining a lightweight and durable **polymer frame** . The **gas blowback** system delivers satisfying recoil and responsiveness close to that of a real firearm. The

RMR-ready cutout allows for the installation of a micro red dot sight without additional machining. The integrated **Picatinny rail** facilitates the mounting of a light or laser for CQB. The **11mm CW** threaded barrel offers the option of adding suppressor adapters or tracers.

Ergonomics, compatibility and upgrade

The textured grip and flat trigger ensure optimal control in short bursts and semi-automatic fire. The 30-round magazine provides ample ammunition for gameplay, and compatibility with G-series magazines (confirmed) simplifies logistics. The P80 platform accepts numerous standard parts and upgrades-sights, triggers, and internal components-for those who wish to customize their replica.

FAQ

What types of gas can I use with this gun?
The P80 PFS9 uses standard gases for GBB replicas (Green Gas, suitable propane, or a drier gas if compatible). Follow the manufacturer's recommendations to preserve the seals and nozzles.

Is the 11mm thread compatible with my silencer?
Yes, the barrel has an **11mm internal thread (CW type)** . Most suppressors/tracers can be mounted using a suitable **adapter** .

Can a Red Dot microphone be mounted without modifications?
Yes - the replica is **RMR ready** . Check the compatibility of your optic and, if necessary, the intermediate plate.

Is the aluminum slide durable?
CNC machining ensures rigidity and longevity, particularly appreciated in intensive use and during upgrades.

Charger compatibility?
Confirmed compatibility with equivalent **G-series** chargers. Always check model by model before purchase.
