SKU	Designation	French Law	Colors	Mounting	MSRP
A64414	RAIL VFC POUR AKS74U MODEL 3	Vente libre	Black	21mm rail	145.00 € incl. tax

Upgrade your AKS-74U with a robust and fully modular CNC handguard.

The VFC AK K-Rail Model 3 handguard transforms the AKS-74U platform into a modern and versatile replica. CNC-machined from high-quality aluminum, it offers exceptional rigidity while maintaining a lightweight design, ideal for mounting lights, lasers, grips, and optics on a 1913 rail.

- **Designed for AKS-74U VFC** : drop-in installation without modification.
- **CNC machined aluminum** : maximum robustness and durable anodized finish.
- **Picatinny 1913 rails** : full accessory compatibility.
- **Ventilated profile** : better heat dissipation and modern look.
- **Lightweight yet sturdy** : ideal for tactical setups.
- **Secure assembly** : supplied with all necessary screws.

With the K-Rail Model 3, VFC offers a simple and elegant solution for equipping the AKS-74U with a fully tactical interface. The CNC-machined structure provides rigidity and stability, improving the retention of mounted accessories, even during dynamic handling.

The whole thing retains a compact profile, consistent with the spirit of the Krinkov, while opening the door to modern configurations such as a lamp, side red dot or short handle.

This **AK K-Rail Model 3 handguard** is designed for versatility and durability. Its **CNC-machined aluminum** construction and no-modification installation make it an ideal solution for upgrading an **AKS-74U GBBR** without compromising its reliability.

FAQ

Does the assembly require modifying the replica?

No, it installs directly as a replacement for the original handguard.

Can a lamp or laser be mounted directly on it?

Yes, the 1913 Picatinny rails allow the installation of all compatible accessories.

Does the handguard get hot during use?

The ventilated aluminum design greatly improves heat dissipation.

Is it compatible with other VFC GBBR AKs?

It is specifically designed for the VFC AKS-74U series.

Is the stability of the accessories guaranteed?

Yes, CNC machining guarantees rigid support and perfect repeatability of assembly.
