Complete torque wrench set for precision adjustments and airsoft maintenance.

The **GUN POWER TOOL Elite 51-piece Dynamometer Kit** is a professional set designed for airsoft technicians, combining **tightening precision** , compactness, and tactical robustness. An essential control tool for every sensitive adjustment.

- **Number of pieces:** 51
- **Torque wrench:** accuracy ±4%
- **Clamping range:** calibrated for airsoft equipment
- **Compatibility:** Hex bits and 1/4" sockets
- **Handle:** Anodized aluminum, ball-style
- **Tips:** High-strength **S2** steel
- **Weight:** lightweight and portable
- **Box:** compartmentalized rigid case

A precision kit designed for airsoft

The **GUN POWER TOOL Torque Kit 51 pieces** is designed for the maintenance and assembly of **airsoft replicas** . Each component has been designed to allow for **precise and repeatable adjustments** : perfect for avoiding overtightened or poorly adjusted screws that impair performance.

Accuracy ±4% : controlled tightening

Thanks to its ±4% calibrated mechanism, the torque wrench helps **preserve the integrity of sensitive parts** . It guarantees reliable tightening torque on every screw-an essential tool in the workshop and in the field.

Anodized aluminum tactical grip

Inspired by the "bullet" design, the handle offers excellent grip, even for extended periods. Its **lightweight and durable aluminum** construction is built to last, while maintaining a distinctly

military aesthetic.

Dual compatibility : hex bits + 1/4" sockets

The wrench accepts both standard **hex bits** and **1/4" sockets** , with an included adapter to ensure precision is never compromised. A modular and comprehensive solution for all your technical needs.

Portable and organized

Everything is packed in a **compartmentalized, rigid case** , optimized for storage and portability. Ideal for quick interventions between games or workshop setup sessions.

FAQ

Is this kit actually calibrated for airsoft?

Yes, it offers ±4% accuracy, perfectly suited to sensitive airsoft components such as bodies, rails, or hop-up units.

Can 1/4" sockets be used with this wrench?

Yes, an adapter is included to allow full compatibility without loss of torque.

Is the briefcase sturdy?

Yes, it is made of rigid plastic, with protective inserts and a secure closure, suitable for transport.
