Maximum compactness and GBB realism for dynamic gameplay.

The **APFG SPEAR LT 9'' SBR** is a compact **GBB airsoft replica** designed to offer immersive mechanical realism and excellent handling in CQB and milsim environments.

- **System:** Gas Blowback (GBB)
- **Length:** 450 to 750 mm (stock folded/extended)
- **Weight:** 2300 g
- **Power:** 1.2 J
- **Magazine capacity:** 30 rounds
- **Colors:** Black or Tan

SPEAR LT 9'' SBR format: agility and modernity

With its short barrel and **9-inch SBR** format, the **APFG SPEAR LT 9''** is designed for confined environments. It excels in CQB while remaining perfectly usable in more open terrain thanks to its stability and careful ergonomics.

CNC construction and M-LOK handguard

The upper receiver is **CNC-machined from aluminum** , ensuring rigidity and lightness. The **8'' M-LOK** handguard allows for the addition of accessories (grips, lights, lasers) according to the player's needs. The **Picatinny** top rail ensures full compatibility with modern optics.

Immersive Gas Blowback System

The **GBB** system delivers crisp recoil and realistic kinematics with every shot. The steel **bolt catch** and control components contribute to overall reliability and enhance the feeling of use, closely resembling a real firearm.

EZ Quick Adjust Hop-up

The **EZ Quick Adjustment Hop-Up** system allows for quick and easy adjustment of BB trajectory. It easily adapts to different BB weights and playing distances, ensuring consistent accuracy.

Ambidextrous ergonomics and folding stock

The **SPEAR LT 9"** features an **ambidextrous selector switch** , perfectly suited for both right- and left-handed shooters. Its **folding aluminum stock** enhances mobility and facilitates transport, while maintaining good stability during shooting.

VFC charger compatibility

The replica comes with a **30-round gas magazine** , compatible with **VFC AR type V2 and V3 magazines** . A significant advantage for players already equipped with VFC GBB platforms.

Two colors available

This sheet includes the **Black** and **TAN** versions, ideal for adapting to different tactical configuration styles.

FAQ

Is this replica suitable for team play?
