## Realistic and durable metal magazine for MWS GBBR replicas.

The **VORSK Airsoft VMAR Series MWS 40R** is a metal gas magazine designed for MWS type gas blowback airsoft replicas, offering realistic capacity and excellent efficiency of use.

- **Type:** Gas charger
- **Capacity:** 40 BBs
- **Compatibility:** Compatible with MWS replicas
- **Material:** Metal
- **Weight:** 624 g

### A charger designed for realism MWS

This magazine is designed for users of **MWS gas blowback** platforms seeking an authentic experience. Its **realistic 40-round capacity** encourages near-realistic fire control, perfectly suited to tactical play and GBBR replicas.

### Steel construction and authentic feel

The **VMAR 40R** features a **folded steel outer shell** combined with an **all-steel internal structure** . Its weight of 624g contributes to a realistic balance and handling close to that of a real magazine, a point that is immediately noticeable during gameplay.

### Gas efficiency and simplified design

The deliberately simplified internal design minimizes unnecessary mechanical interactions. The result: **improved gas efficiency** , with up to **approximately 100 BBs fired per refill** under standard conditions, and increased long-term reliability.

### Easy compatibility and maintenance

This loader uses a **VORSK inlet valve** common to the **VMP** and **Hi-Capa** series, as well as a **VORSK VMP outlet valve** . This consistent choice simplifies maintenance, parts availability, and loader fleet management.

### A pragmatic choice for playing GBBR

Positioned competitively, the **VMAR Series 40R** allows for the use of multiple magazines without compromising performance. This makes MWS gameplay more accessible, sustainable, and

consistent for players who want to fully immerse themselves in gas blowback.

**FAQ**

**Is this charger compatible with all MWS replicas?**

It is compatible with gas blowback airsoft replicas using the MWS standard.

**How long does a gas refill provide?**
