A realistic format for the MWS game

With its **25-round capacity** , this magazine is perfectly suited to realistic **MWS gas blowback** gameplay. It promotes tactical reload management and a more immersive gaming experience, true to the GBBR spirit.

Gas efficiency and streamlined design

The simplified internal design minimizes energy loss and improves gas flow. In practice, this allows for **approximately 65 shots per fill** under standard conditions, while maintaining a smooth and consistent cycle.

Steel structure and polymer envelope

The **VMAR Series 25R** features an **all-steel internal structure,** ensuring realistic weight and authentic handling. The **HIPS polymer** outer shell provides robustness and durability while maintaining a manageable overall weight.

Valve compatibility and easy maintenance

This loader uses a **VORSK inlet valve** common to the **VMP** and **Hi-Capa** series, combined with a **VORSK VMP outlet valve** . This consistent solution simplifies maintenance, parts availability, and fleet management.

An affordable option for equipping yourself with GBBRs

Thanks to its competitive pricing and reliability-oriented design, the **VMAR 25R** makes it easy to build a complete set of MWS magazines. It provides lasting support for players looking to engage in realistic and fluid GBBR gameplay.
