Three colors for the same GBB pistol

The **Golden Eagle Custom AT3704** features a silhouette inspired by the EU17 platform with a custom design. It is available in **black** , **gray** , and **FDE** . The gray version combines its main finish with a black inner barrel.

Blowback and Green Gas operation

This **GBB airsoft pistol** uses Green Gas and fires in semi-automatic mode. Its metal slide produces a **blowback** effect with each shot. The included magazine holds 23 **6mm airsoft** BBs.

A game-appropriate construction

The reinforced polymer body and metal slide combine to form a package weighing 840g. A Picatinny rail under the barrel accommodates compatible accessories. Fiber optic sights provide colored markings for aiming during gameplay.
