A bottle of 3,400 marbles offered in four weights from 0.25 to 0.32 g.

BLS Precision Supreme Grade 6mm BBs in bottles of 3,400 are available in four weights: 0.25g, 0.28g, 0.30g, and 0.32g. Each weight is a distinct variant, allowing you to select the BBs that best suit the characteristics and settings of your airsoft replica. The bottled packaging contains 3,400 BBs in a convenient format for storage and regular use. This presentation also allows for quick identification of the chosen weight within the different versions of the range.

BLS Precision BBs in four weights

BLS Precision Supreme Grade 6mm BBs are available in **0.25g** , **0.28g** , **0.30g** , and **0.32g weights** . This selection allows you to choose a weight based on the technical specifications, settings, and recommendations of your airsoft replica manufacturer.

A bottle of 3,400 airsoft BBs

Each variant is packaged in a **bottle containing 3,400 marbles** . This format provides the same quantity for all four weights and facilitates their identification within the range. One bottle corresponds to a single weight.

The BLS precision range

BLS Precision manufactures high-precision airsoft BBs used on the international market. Its products are also found in ranges distributed by major brands in the sector. The **Supreme Grade** designation identifies this series of 6mm BBs packaged in bottles.

FAQ

What is the theoretical mass of the marbles contained in each bottle?

Excluding packaging, 3,400 marbles theoretically represent 850 g in 0.25 g, 952 g in 0.28 g, 1,020 g in 0.30 g and 1,088 g in 0.32 g.
