### An ultra-responsive .177 pistol with a distinctive hexagonal look.

The **AW Custom VX0101** is a .177 blowback pistol designed for dynamic shooting, combining lightness, responsiveness and modern ergonomics.

- **Caliber:** .177 (4.5 mm)
- **Operation:** Gas blowback
- **Initial speed:** 320 FPS
- **Total length:** 200 mm
- **Weight (without charger):** 516.5 g
- **Inner barrel length:** 93 mm
- **Accessory rail:** integrated

#### A pistol designed for speed

From the very first handling, you can tell this model was designed for speed. The signature **AW Custom HEX-cut** slide reduces moving mass, resulting in a more responsive blowback cycle and quicker realignment between shots. In practice, this is a real advantage for fast-paced shooting sessions or Action Air-style courses.

#### Modern ergonomics and a firm grip

The skeletonized polymer frame incorporates effective **stippling**, comfortable even during long sessions. The redesigned trigger guard, with double finger grooves, allows for a high and stable grip with the supporting hand. In other words, the pistol remains perfectly in place, even when the pace picks up.

#### Equipment designed for dynamic use

**Bright fiber optic** sights facilitate rapid target acquisition, even in varying light conditions. The lower rail allows for the mounting of a light or laser, while the pre-installed HEX-cut magwell secures and speeds up reloading.

### **Design and technical details**

- **External barrel:** threaded for compensator or dummy moderator
- **Magazine:** VXMG02 gas included
- **Height and handlebars:** fiber optic front and rear
- **Charger weight:** 278.6 g
- **Box dimensions:** 319 x 171 x 51 mm

### **FAQ**

#### **What type of ammunition should be used with this pistol?**

This model operates in .177 caliber (4.5 mm) with steel BBs suitable for blowback pistols.

#### **Is the gun delivered ready to use?**

Yes, it comes with a VXMG02 gas magazine. You just need to add gas and BBs to use it.

#### **What type of practice is it intended for?**

It is particularly suited to dynamic recreational shooting and Action Air type disciplines, thanks to its responsiveness and ergonomics.
