A lightweight and responsive CO2 pistol designed for dynamic shooting.

The **AW Custom VX7100 Mod 1** is a .177 CO² blowback airgun pistol, lightweight and ergonomic, ideal for dynamic and recreational shooting.

- **Caliber:** .177 (4.5 mm)
- **Operation:** CO² blowback
- **Initial speed:** 324 FPS
- **Total length:** 198 mm
- **Weight (without charger):** 470 g
- **Inner barrel length:** 93 mm
- **Accessory rail:** integrated

Modern and scalable VX7 platform

Derived from the VX7 series, the **AW Custom VX7100 Mod 1** boasts a modern, streamlined, and efficient design. The slide with its pronounced serrations offers excellent grip - even in dynamic conditions or when wearing gloves. The **CO² blowback** cycle is fast, smooth, and particularly enjoyable during rapid-fire shooting.

Polymer carcass and maneuverability

Its polymer frame significantly reduces weight without sacrificing rigidity. The result: a lively, easy-to-handle pistol that remains stable even during rapid fire. The textured stippling grip and the ergonomic trigger guard promote a high, natural grip - you immediately feel in control.

Modularity and accessories

The threaded external barrel allows for various configurations (compensator or dummy attachment). The integrated lower rail allows for the addition of a light or laser as needed. It's a versatile base, designed to evolve with the user.

An ally of dynamic shooting

Lightweight, responsive, and well-balanced, this model is clearly aimed at fans of **dynamic shooting** and **Action Air**. It stands out for its quick setup and comfort during long sessions.

- **External barrel:** threaded
- **Charger:** VXMG07 included
- **Charger weight:** 270 g
- **Box dimensions:** 290 x 185 x 56 mm
- **Package weight:** 960 g

FAQ

What type of ammunition should be used with this model?

This pistol uses .177 caliber (4.5 mm) steel BBs, compatible with blowback systems.

Does the pistol come with a magazine?

Yes, it comes with a CO² compatible VXMG07 magazine, ready to use after inserting the cartridge and BBs.

What is the intended use of this model?

It is designed for dynamic recreational shooting and leisure Air Action, where lightness and speed of execution are essential.
