### Compact 700 lm output with M-LOK direct mounting.

The **SKYWOODS RL700 M-LOK tactical flashlight** is a compact aluminum alloy flashlight designed for direct mounting on **M-LOK** interfaces, offering up to 700 lumens for precise and efficient lighting.

- **LED:** SST20
- **Power:** 700 lumens
- **Range:** 200 m
- **Beam angle:** 8°
- **Modes:** Constant / Strobe
- **Battery life:** 55 min / 2 h
- **Power supply:** 1 x 16340 rechargeable 2200 mAh battery (included)
- **Fastening:** M-LOK
- **Waterproof rating:** IP66
- **Impact resistance:** 1 m
- **Dimensions:** 26 x 89 mm
- **Weight:** 105 g (with battery)
- **Color:** Black
- **Remote switch:** Included
- **Charger:** Charging base + USB cable included

**A lamp designed for action**

In **sport shooting** , **airsoft** , or professional interventions, quick reaction time is essential. This compact flashlight offers a focused 8° beam with a range of up to **200 meters** . In practical terms, this means rapid and precise target identification, even in low-light conditions. The sharp focus of the hot spot and the smooth transition to the periphery of the beam are immediately noticeable.

### **LED SST20: Controlled power**

Equipped with an **SST20 LED** , it delivers 700 lumens in constant mode, with a **strobe** mode for specific needs. Power is optimized to maintain consistent battery life: approximately 55 minutes at full intensity and up to 2 hours depending on the mode used. A perfect balance between performance and energy efficiency.

### **M-LOK Direct Mounting**

The integrated **M-LOK** mounting system allows for direct installation on compatible handguards, without the need for an additional rail. The result is a low, stable, and ergonomic mount. The profile remains compact (26 x 89 mm), minimizing bulk on the weapon and preserving handling.

### **Aluminum construction & terrain resistance**

Its **aluminum alloy** casing ensures both lightness (105 g with battery) and sturdiness. **IP66** certified, it resists splashes of water and harsh outdoor conditions. Impact resistance up to 1 meter further enhances its durability during intensive use. It's exactly the kind of equipment you install and forget about... until you really need it.

### **Convenient rechargeable power supply**

The included **2200 mAh rechargeable 16340** battery is easily removable. It recharges via the included base and its USB cable, simplifying logistics for gunsmiths and professionals. The removable remote switch allows for intuitive control, while a safety cable also enables handheld operation if needed.

- **Switch type:** Rear button + removable remote switch
- **Charging:** Dedicated base with USB cable
- **Use:** Target shooting, airsoft, outdoor activities

## **FAQ**

### **Is the lamp compatible with all handguards?**

It is compatible with handguards that have a standard M-LOK interface.

### **Is the battery included and rechargeable?**

Yes, a 16340 2200 mAh battery is included. It is rechargeable via the charging base and the included USB cable.

### **Can it be used in the rain?**

With an IP66 protection rating, it is resistant to water splashes and harsh weather conditions.
