Upgrade CNC optics-ready for Glock 19 GBB inspired LWS Tomahawk.

The **Lancer Tactical LWS x VEIL Tomahawk Glock 19 Gen5 GBB Slide Kit** is a complete slide kit designed for **Glock 19 GBB Gen 5** replicas. Inspired by the Tomahawk slide developed by **LWS - Landers Weapon Systems** in collaboration with **VEIL Solutions** , it combines modern design, optical compatibility, and CNC construction.

- **Compatibility:** Elite Force / Umarex Glock 19 GBB Gen 5 (OEM VFC)
- **Construction:** CNC aluminum
- **Replica:** 1:1 reproduction LWS Tomahawk
- **External Canon:** ported style
- **Optics:** RMR mounting plate included
- **Sights:** rear and front sights, height suppressor
- **Color:** black
- **Type:** Complete GBB cylinder head kit
- **Contents:** bolt, outer barrel, RMR plate, RMR plate cover, extractor, sights

A cylinder head inspired by the Tomahawk design

This kit replicates the aesthetics of the famous **LWS Tomahawk** , a bolt carrier developed by **Landers Weapon Systems** in collaboration with **VEIL Solutions** . Its aggressive design and distinctive cutouts provide a strong visual identity while helping to reduce the bolt carrier's moving mass.

CNC machining of aluminum

The cylinder head is made of **CNC-machined aluminum** , guaranteeing excellent machining precision and high robustness. This type of manufacturing allows for a clean and durable finish while maintaining an optimized weight for smooth cycling on **gas blowback** replicas.

Modern optically compatible configuration

The kit is designed for modern **airsoft** setups. It includes an **RMR mounting plate** for installing a micro red dot sight. The **height suppressor sights** allow for co-witness with the optic, providing a reliable and quick aiming solution.

External ported cannon and functional cutouts

The **ported outer barrel,** combined with the cutouts in the breech, helps reduce moving mass. This design improves the replica's cycle speed and responsiveness during rapid fire in games.

Simple drop-in installation

The kit is designed for **drop-in** installation on **Elite Force / Umarex Glock 19 Gen 5 GBB** replicas (OEM VFC). The set includes the main components needed for the upgrade, allowing for a quick transformation of the replica without complex modifications.

FAQ

Which replicas is this kit compatible with?

This kit is designed for Elite Force / Umarex Glock 19 Gen 5 Gas Blowback replicas (OEM VFC).

Does the kit allow for the installation of a red dot sight?

Yes. An RMR mounting plate is included for easy installation of a compatible red dot microphone.

Does the installation require any modifications?

No. The kit is designed as a drop-in solution for compatible Glock 19 GBBs, allowing for easy installation.
