## Lightweight and robust airsoft silencer for increased discretion during gameplay.

The **SOCOM SL ALU Black Silent Tactical Lancer** combines an **aluminum** body with a steel thread for excellent durability and **optimal discretion** in airsoft.

- **Body material:** Plastic
- **Thread:** steel
- **Finish:** black
- **Accessory:** Removable inner barrel extension included
- **Thread pitch:** 14 mm CCW (counter-clockwise)
- **Length:** 195 mm

### Enhanced discretion in the field

In a game situation, this **airsoft silencer** reduces the replica's sound signature. You quickly notice an increase in **stealth**, especially during infiltration or in confined spaces. It's a simple accessory, but one that clearly changes your tactical approach.

### Aluminum structure and no steel screws

The choice of an **aluminum body** allows for excellent lightness, preventing the replica from becoming unbalanced. The more durable **steel threading** ensures reliable assembly and optimal alignment, even after numerous handling procedures.

### Universal compatibility 14 mm CCW

Thanks to its **14mm counter-clockwise** thread, this model fits a wide range of airsoft replicas. Installation is quick and secure, requiring no special adjustments in most configurations.

### Removable inner barrel extension

The inclusion of an **inner barrel extension** provides a welcome bonus. It helps stabilize the ball as it exits the barrel, while remaining removable to adapt to each player's preferences or the constraints of the playing field.

## **FAQ**

### **Is this silencer compatible with all replicas?**

It is compatible with replicas equipped with a 14mm CCW thread, a widely used standard in airsoft.

### **Does it offer a real gain in discretion?**

Yes, it reduces the noise of the air exiting the exhaust, making the replica more discreet, especially in enclosed environments.

### **Is the internal extension mandatory?**

No, it is removable and can be used or removed as needed and configured.
