Compact and lightweight PCP pistol with multi-shot magazine and optimized battery life.

The **Beeman General PCP** is a compact, pre-charged pneumatic (PCP) air pistol designed for excellent accuracy and a comfortable grip. Available in **4.5 mm** and **5.5 mm** , it combines long battery life, lightweight design, and multi-shot capability. **Red dot sight not included.**

- **Type:** PCP Gun
- **Available calibers:** 4.5 mm and 5.5 mm
- **Reservoir:** 3000 PSI
- **Battery life:** Up to 60 shots per reload
- **Magazine capacity:** 12 rounds in 4.5 mm / 10 rounds in 5.5 mm
- **Speed:** 750 FPS in 4.5 mm / 600 FPS in 5.5 mm
- **Relaxation:** Adjustable
- **Weight:** 1.6 kg
- **Operation:** PCP Pre-Compressed Air
- **Picatinny Rail**

A compact and easy-to-handle PCP platform

The **Beeman General PCP** boasts a compact design that's particularly comfortable to hold. Weighing only 1.6 kg, this pistol remains easy to handle while maintaining excellent stability during extended shooting sessions.

PCP 3000 PSI System

Its reservoir, capable of holding up to **3000 PSI,** ensures a consistent air supply and reliable performance. In practice, this translates to improved velocity stability and noticeable shooting comfort, shot after shot.

Optimized battery life of up to 60 shots

The PCP system allows for up to **60 shots per refill** , a particularly valuable advantage for long sessions without frequent refills. This extended capacity improves the rate of fire and reduces interruptions.

Multi-shot magazine depending on the caliber

The **Beeman General** features a rotary magazine adapted to the chosen caliber:

- **Capacity in 4.5 mm:** 12 shots
- **Capacity in 5.5 mm:** 10 shots

This multi-shot configuration improves ease of use and allows for rapid follow-up shots without constant manual reloading.

Adjustable trigger for better control

The **adjustable trigger** allows the shooter to customize the trigger pull to their preferences. This adjustment provides a better feel and improves control during precision shooting.

Two calibers depending on the intended use

Available in **4.5 mm** and **5.5 mm** , the pistol easily adapts to the shooter's needs. The 4.5 mm caliber prioritizes a higher velocity of approximately 750 FPS, while the 5.5 mm offers a more pronounced impact with a velocity of approximately 600 FPS.

- **Operation:** PCP pre-compressed air
- **Maximum pressure:** 3000 PSI
- **Battery life:** Up to 60 shots
- **Magazine:** Rotary multi-shot
- **Relaxation:** Adjustable
- **Weight:** 1.6 kg

FAQ

What is the range of the Beeman General PCP?

The pistol can deliver up to 60 shots per PCP refill depending on usage conditions.

What is the difference between the 4.5 mm and 5.5 mm versions?

The 4.5 mm version prioritizes higher velocity, while the 5.5 mm offers a heavier projectile with more impact.

Is the trigger adjustable?

Yes, the Beeman General PCP has an adjustable trigger allowing the trigger pull to be adapted to the shooter's preferences.
