Extreme pace and suppression power for team play.

The **WELL PRO WE23-S** is an **airsoft Minigun replica** designed for intensive support shooting. With its high rate of fire and large capacity magazine, it imposes a dynamic and engaging pace of play.

- **Energy:** 0.78 J
- **Speed:** 290 FPS (0.20 g)
- **Magazine capacity:** 1200 BBs
- **Firing mode:** Automatic
- **Hop-up:** Adjustable
- **Internal barrel:** 226 mm - 6.03 mm
- **Gearbox:** Dedicated version with 8mm steel bearings
- **Power supply:** Battery not included (T-connector)
- **Materials:** Metal and polymer
- **Weight:** 3390 g

A high-rate-of-fire support replica

Inspired by **Gatling gun** systems, this **Minigun replica** delivers an impressive rate of fire (up to 36 BBs/second). On the field, this changes everything: you control areas, block movement... and dictate the pace.

Robust and compact design

Despite its imposing appearance, the **WELL PRO WE23-S** remains relatively compact. The combination **of metal and reinforced polymer** ensures a good balance between sturdiness and maneuverability - a valuable feature for longer games.

Ergonomics and tactical modularity

Equipped with a **Picatinny rail** , an **M-LOK interface** , and **QD** mounts, it easily accepts accessories and straps. The carrying handle improves grip, especially when moving or in a support position.

Reliable mechanics for heavy-duty use

The **dedicated gearbox** with steel gears and 8mm bearings ensures good durability. The **adjustable hop-up** allows you to adjust the trajectory depending on the BBs used (0.23g to 0.25g recommended).

- **Rate of fire:** Approximately 36 balls/second
- **Charger type:** Polymer box with viewing window
- **Connector:** T-connector
- **Length:** 570 mm
- **Height:** 180 mm
- **Serial number:** Yes
- **EAN:** 5904420011101

A key role in airsoft

Typically used in **team support** , this replica allows you to cover advances, pin down the opponent, and create tactical opportunities. It's the kind of equipment that transforms a strategy into a tangible advantage on the field.

FAQ

Which battery should I use with this model?

This replica requires a battery compatible with a T-connector (not included). It is recommended to use a battery suitable for high rates of fire.

What type of marbles should I use?

BBs weighing 0.23g to 0.25g are recommended for a good balance between range, accuracy and stability.
