Ultra-realistic, licensed Daniel Defense compact GBB airsoft replica.

The **DOUBLE EAGLE DD PCC SBR GBB** is a compact airsoft replica under official **Daniel Defense** license, designed to offer realism, robustness and performance in GBB.

- **License:** Official Daniel Defense
- **System:** Gas Blowback (GBB)
- **Materials:** Aluminum, steel, polymer
- **Maximum capacity:** 40 marbles (30 marbles recommended)
- **Firing modes:** Safe / Semi / Full Auto
- **Length:** 630 - 710 mm
- **Internal lens:** 200 mm
- **Weight:** 2410 g
- **Hop-up:** Adjustable
- **Energy:** ? 1.2 joules

A compact and responsive replica

Inspired by modern PCC platforms, this SBR (Short Barrel Rifle) configuration offers an excellent compromise between compactness and maneuverability. In the field, its quick handling is immediately appreciated, making it ideal for CQB environments or dynamic movement.

Full metal construction and realism

The **aluminum alloy** body combined with steel parts ensures robustness and durability. The deeply engraved **Daniel Defense** markings enhance the visual realism - a real plus for enthusiasts of faithful replicas.

Complete ambidextrous ergonomics

The fire selector, magazine release, and bolt catch are fully ambidextrous. This configuration improves the fluidity of handling, whether in-game or during training.

Modern and modular interface

The **7.5" M-LOK** handguard allows for the addition of accessories (grip, light, laser), while the full-length Picatinny top rail facilitates the mounting of optics. Integrated QD points simplify sling attachment.

Immersive GBB system

The **gas blowback** system provides realistic recoil and an immersive shooting experience. When used with a suitable gas, the cycle remains smooth with consistent firing, even during extended use.

Additional features

- **Type:** PCC (Pistol Caliber Carbine)
- **Handguard:** Licensed DD4 M-LOK
- **Rail:** Full top Picatinny
- **Attachments:** Ambidextrous QD Points
- **Recommended gas:** 12 kg depending on conditions

FAQ

What type of gas should I use with this replica?

A 12 kg gas cylinder is recommended. Depending on the temperature, a more powerful gas can be used to maintain performance.

Is this replica suitable for CQB?

Yes, its compact SBR format and maneuverability make it an excellent choice for close-quarters environments.

Are the controls usable by a left-handed person?

Yes, all the main controls are ambidextrous, offering optimal comfort for both right- and left-handed users.
