Complete ready-to-play pack with AEG, battery, charger and chargers included.

The **Lancer Tactical** PPK20 AEG Gen 3 pack brings together a modern **airsoft replica** and its essential accessories for immediate use in the field.

- **Type:** PPK20 Gen 3 AEG replica
- **Body:** Reinforced polymer
- **Outer barrel:** Steel
- **Gearbox:** V3 with 9mm bearings
- **Firing modes:** Safe / Semi
- **MOSFET:** Semi-automatic only
- **Cabling:** T-Dean
- **Length:** 80 to 91 cm
- **Weight:** 1.8 kg
- **Battery:** LiPo 7.4V 1000mAh included
- **Charger:** Balance BO3 LiPo 2S/3S
- **BB magazine:** Mid-cap AK12 30/135 rounds

The replica is locked in SEMI-AUTOMATIC mode. It is not possible to access burst and full-auto modes without changing the ETU.

A complete airsoft pack to get started effectively

Designed for immediate use, this pack includes a high-performance **AEG replica** and essential accessories. On the field, its versatility is immediately apparent: whether in CQB games or outdoors, the package is well-balanced and ready to keep up.

A modern and ergonomic replica

The **PPK20 Gen 3** offers well-designed ergonomics with its **adjustable and folding stock** , **ambidextrous controls** , and **comfortable pistol grip** . The handguard incorporates **M-LOK** interfaces and a **Picatinny rail** , allowing for the addition of tactical accessories as needed.

Internal performance and responsiveness

Equipped with a **V3 gearbox** with 9mm bearings and a **programmable MOSFET (board locked in SEMI mode)** , the replica ensures excellent trigger response. The **adjustable hop-up** system allows for precise adjustment of the BB trajectory to optimize accuracy.

Suitable battery and battery life

The pack includes a compact **7.4V LiPo battery** compatible with several configurations (stock tube, AK top cover). Its stick format facilitates integration, while offering balanced battery life for regular gaming sessions.

Smart and safe charger

The **BO Manufacture BO3 charger** automatically adjusts charging parameters thanks to its integrated microprocessor. It safely charges **2S and 3S LiPo** batteries with automatic shut-off once full charge is reached.

Adjustable capacity with mid-cap charger

The supplied **AK12** magazine offers an adjustable capacity of **30 or 135 BBs** , allowing you to adapt the gameplay according to the scenarios (realism or increased autonomy).

FAQ

Is this pack ready to play immediately?

Yes, it includes the replica, a battery, a battery charger, and a BB magazine. Just charge the battery before use.

Can an 11.1V battery be used?

Yes, the replica is compatible with an 11.1V LiPo battery thanks to its MOSFET, which improves responsiveness.

Is the BB magazine adjustable?

Yes, the mid-cap magazine allows you to choose between 30 and 135 BBs depending on your playing preferences.
