## Reliable and robust gas magazine, designed for the XM7 GBB platform.

The **VFC XM7 GBB Tan 22-round magazine** is a gas magazine dedicated to APFG XM7 replicas, offering reliable feeding and robust construction for intensive airsoft use.

- **Type:** GBB airsoft gas charger
- **Compatibility:** APFG XM7 GBB, VFC SR-25 GBB, SCAR-H MK17 GBB
- **Capacity:** 22 shots
- **Caliber:** 6mm BB
- **Power source:** Green Gas
- **Materials:** aluminum, alloy, metal, copper, rubber
- **Weight:** 410 g
- **Color:** Tan

### A charger dedicated to the XM7 GBB platform

On the field, having a reliable magazine makes all the difference. The **VFC XM7 GBB Tan 22-round magazine** was designed specifically to complement APFG XM7 replicas, offering consistent feeding and excellent gas retention. It's the kind of equipment you'll want to slip into your vest without hesitation, as a direct complement to your primary replica.

### Expanded compatibility and versatility

Beyond the XM7 platform, this model stands out for its compatibility with several popular models on the market. It works with the VFC SR-25 GBB systems (SR-25, SR-25 ECC, M110 SASS) as well as with the SCAR-H MK17 GBB. A real advantage for players already equipped with their own gear, who can share magazines without any issues.

### Sturdy and realistic construction

Its aluminum and metal alloy construction inspires confidence from the moment you pick it up. The 410g weight also contributes to this realistic feel, close to that of a real magazine. The internal components, including copper and rubber elements, ensure a good seal and a consistent gas supply, even under heavy use.

### Performance and battery life in-game

With a 22-round capacity of 6mm BBs, this magazine is designed for realistic gameplay, consistent with GBB platforms. It's designed to run on Green Gas, offering a good balance between power, consistency, and ease of use. In practice, this translates to reliable cycling and consistent firing.

**Additional information**

- **Type of use:** airsoft only
- **Compatibility:** VFC GBB platforms type SR-25 and SCAR-H
- **Packaging:** charger sold individually
- **Finish:** tan color matching modern replicas

**FAQ**

**Is this magazine compatible with all GBB replicas?**

No, it is designed for VFC-compatible platforms such as the SR-25 GBB, SCAR-H MK17 GBB, and APFG XM7. It is important to check compatibility before use.

**What type of gas should I use with this charger?**

This magazine is designed to work with Green Gas, commonly used in GBB airsoft to ensure good performance and stable use.

**What is its capacity at stake?**

It can hold up to 22 6mm BBs, which is a realistic capacity suitable for GBB replicas.
