A64417	VFC Tan Silencer for XM7	Vente libre	M14 - G/CCW	Tan/Beige	119.00 € incl. tax

A QD dummy silencer in a modern military style to personalize your XM7.

The **TASK FORCE Silencer XM7 SLX 6.8 Tan** is an aluminum dummy sound moderator, designed for XM7 type airsoft replicas, providing a realistic style and quick installation thanks to its QD system.

- **Type:** Airsoft dummy suppressor
- **Compatibility:** replicas with 14mm CCW thread
- **System:** QD (Quick Detach) quick-release fastener
- **Style:** XM7 SLX 6.8
- **Material:** aluminum
- **Color:** Tan / FDE
- **Accessories included:** CCW 14mm QD flash hider
- **Use:** airsoft only

A modern look inspired by recent military platforms

From the first glance, the **TASK FORCE XM7 SLX 6.8 Tan Silencer** boasts a style clearly inspired by NGSW configurations. Its elongated shape and tan finish instantly add a realistic touch to your replica. It's exactly the accessory you choose to transform a standard configuration into a visually cohesive and modern setup.

Convenient and fast QD system

The Quick Detach (QD) system allows for quick, tool-free assembly and disassembly. In practice, this makes it easy to adapt your replica to your needs: transport, CQB configuration, or outdoor setup. The included QD flash hider provides a solid and reliable base for attaching the suppressor in seconds.

Aluminium construction: lightweight and robust

Made of aluminum, this dummy suppressor offers a good compromise between strength and manageable weight. It doesn't excessively add weight to the front of the replica, allowing for good maneuverability, even during extended use. The FDE/tan finish blends perfectly with modern setups.

Easy compatibility and integration

Thanks to its 14mm CCW thread via the included flash hider, this model remains compatible with a wide range of airsoft replicas. It is suitable for both XM7 users and players looking to customize other platforms with a contemporary tactical approach.

A purely aesthetic accessory

This model is a dummy silencer, intended solely for airsoft use. It does not actually reduce noise but plays a key aesthetic role in customizing a replica. It also helps protect the end of the outer barrel.

Additional information

- **Reference:** TF-SLX68-TN
- **Contents:** QD silencer + flash hider
- **Assembly:** quick and tool-free
- **Use:** Airsoft customization

FAQ

Does this silencer actually reduce noise?

No, this is a dummy model intended solely for airsoft. It does not have any real sound reduction function.

Is it compatible with all replicas?

It is compatible with replicas featuring a 14mm CCW thread via the included flash hider. This covers a wide range of airsoft models.

Does the assembly require any tools?

No, the QD system allows for quick and easy tool-free installation, ideal for quickly adapting your configuration.
