Comfortable protective glasses with optimized vision and PLATINUM coating.

Bollé Safety Rush+ 2.0 is a pair of protective glasses designed for demanding professional and outdoor environments, offering excellent wearing comfort and durable visual protection.

- **Type:** Rimless safety glasses
- **Weight:** 34 g
- **Frame:** Recycled PC/TPR
- **Lens treatment:** PLATINUM anti-fog and anti-scratch
- **Lens material:** polycarbonate
- **Temples:** ergonomic with wide-opening hinges
- **Nose:** flexible for a better fit
- **Sizes:** S and M/L
- **Standard:** EN ISO 16321-1

The **Bollé Safety Rush+ 2.0** range has been designed to offer a high level of comfort and protection in demanding work environments. From the moment you pick them up, you notice their lightness and excellent balance, qualities that are particularly appreciated during prolonged wear.

Long-lasting everyday comfort

The ergonomic temples combined with wide-opening hinges minimize pressure points around the face. The flexible nose bridge improves the fit and reduces gaps for a more natural hold. In practice, this allows the glasses to be worn for several hours without discomfort.

High-performance PLATINUM treatment

The exclusive **PLATINUM** coating protects the lenses against fogging and scratches. This technology improves the durability of the glasses while maintaining excellent vision quality, even in environments subject to temperature variations or intensive use.

Wide vision and effective protection

Thanks to their frameless design, the **Rush+ 2.0 glasses** offer a wide field of vision, particularly appreciated in dynamic environments. The various lens options available allow the glasses to be adapted to different lighting conditions and professional uses.

A more responsible design

The frame incorporates 28% recycled materials, an approach that allows **Bollé Safety** to offer more sustainable equipment without compromising on robustness and reliability.

- **Use:** professional and outdoor eye protection
- **Structure:** frameless for an expanded field of vision
- **Protection against** impacts, fog, and scratches
- **Availability:** several lens tints depending on the intended use

FAQ

Does the PLATINUM coating protect against fogging?

Yes, the PLATINUM treatment combines anti-fog and anti-scratch protection to improve the visibility and durability of the lenses.

Are there different versions of the glasses?

Yes, the Rush+ 2.0 range is offered with different lens tints to adapt to lighting conditions and professional uses.

Are these glasses suitable for prolonged use?

Yes, their ergonomic design with flexible nose and comfortable temples promotes long-term wear.
