- **Internal lens:** 600 mm
- **Battery:** 7.4V stick type (not included)
- **Length:** 122 cm
- **Weight:** 7.26 kg
- **Color:** Black and real wood

An icon of the Second World War

The **Lancer Tactical MG42 AEG Real Wood** is directly inspired by one of the most famous weapons of the 20th century. Its imposing appearance, long barrel, and distinctive silhouette faithfully recreate the spirit of the equipment used during World War II. It's exactly the kind of replica that immediately draws attention on the field or at a historical reenactment.

Full metal and real wood construction

From the receiver to the folding bipod, most of the components are made of metal to closely replicate the feel of the original model. The **real wood** stock provides an authentic finish and a particularly realistic visual appearance. The textured grip panels also improve handling during long gaming sessions.

Designed for partial support

With its impressive 2,500-round electric drum magazine and exclusively automatic operation, this replica is ideal for providing cover and suppression. In practice, it allows you to maintain high pressure on the opposing team while minimizing reloading.

Folding bipod and adjustable sights

The folding metal bipod offers excellent stability when firing from a fixed position. The folding front and rear sights allow for adjustments to the aiming position to suit playing conditions or player preference.

Performance suited to long distances

Thanks to its approximately 600mm inner barrel and **adjustable Hop-Up** system, this replica promotes consistent trajectories and optimized range. Its power level makes it a particularly popular platform for milsim scenarios and historically immersive games.

Additional features and equipment

- **Bipod:** Folding metal
- **Sights:** Folding and adjustable
- **Handle:** Non-slip texture
- **Battery compartment:** Integrated into the stock
- **Charging handle:** Dummy for added realism
- **Compatibility:** Many internal parts, Version 2 type
- **Drum power supply:** Self-contained electrical operation

A must-have for WWII enthusiasts

Whether for building an impressive collection, participating in historical events, or providing support during airsoft games, this replica combines visual presence, high carrying capacity, and an authentic finish. Its substantial weight and premium materials further enhance the immersive experience on the field.

FAQ

Is the battery included?

No. A compatible 7.4V stick battery and a suitable charger are required to operate the replica.

What is the capacity of the supplied charger?

The replica comes with an electric drum magazine with a capacity of 2,500 BBs.

Does this replica have a semi-automatic mode?

No. This model is configured for automatic firing only with a functional safety feature.
