- **Gearbox:** M240 full metal
- **Engine:** Short type
- **Hop-Up:** Adjustable
- **Power supply:** T-Dean battery (not included)
- **Connectivity:** T-Dean
- **Length:** 124.5 cm
- **Weight:** 8.16 kg
- **Color:** Black

A true support platform for airsoft

The **Lancer Tactical M240 AEG Full Metal** is designed for players in a support role during airsoft games. With its imposing size, large ammunition capacity, and robust construction, it allows for constant pressure on enemy positions throughout the game.

Ultra-realistic full metal construction

From the moment you pick it up, you immediately feel the quality of this replica's construction. Its metal body faithfully reproduces the look and feel of a real support machine gun. This design also enhances the overall durability during intensive use in the field.

CNC external barrel with quick change

The CNC-machined aluminum outer barrel features a quick-release system inspired by the real model. This feature contributes to the overall realism of the replica while highlighting its exceptionally high level of finish.

Impressive firepower

Its 4,000-round electric magazine box is a real asset during long games. Powered directly by the replica's battery, it ensures a continuous supply of BBs and significantly reduces the frequency of reloading.

Ideal platform for tactical accessories

The 20mm Picatinny top rail allows for the mounting of optics, magnifiers, or aiming accessories. Integrated RIS interfaces also offer the option of adding a tactical light or laser module, depending on the player's needs.

Integrated steel bipod

The folding metal bipod significantly improves stability when firing from a fixed position. It allows you to fully utilize the replica's support capabilities while offering considerable comfort during extended scenarios.

Performance adapted for long-distance support

Thanks to its **adjustable Hop-Up** system and a muzzle velocity of 400 to 450 FPS with 0.20g BBs, this machine gun effectively covers large areas. Its CNC-machined aluminum Hop-Up unit contributes to more consistent trajectories.

- **Hop-Up Unit:** CNC machined aluminum
- **Top rail:** 20 mm Picatinny
- **Interface:** RIS for tactical accessories
- **Bipod:** Folding steel with locking mechanism
- **Wiring:** Top with T-Dean connector
- **Compatibility:** T-Dean battery
- **Charger:** Electric magazine box powered by the replica

Designed for demanding support players

This platform is particularly well-suited to milsim scenarios, long-duration operations, and teams seeking a replica capable of providing sustained fire. Its realism, robustness, and payload capacity make it a preferred choice for machine gunner roles in the field.

FAQ

Is the battery included with the replica?

No, the battery and charger are not included.

What is the capacity of the supplied charger?

The supplied electric magazine box offers a capacity of 4,000 balls for long support phases.

Can a scope be installed on this replica?

Yes, the top 20mm Picatinny rail allows for the mounting of optics, red dot sights or other compatible accessories.
