- **Connectivity:** T-Dean
- **Length:** 124.5 cm
- **Weight:** 8.16 kg
- **Color:** Black and wood

A support platform designed to dominate the field

The **Lancer Tactical M240W AEG Wood** is designed for players in a support role within their team. Thanks to its exceptional ammunition capacity and robust design, it allows for continuous fire while providing effective cover during offensive or defensive phases.

Full metal construction and realistic wood finish

Its imposing metal body faithfully reproduces the appearance of modern support machine guns. The wooden elements add a distinctive touch particularly appreciated by realism enthusiasts. In hand, the whole thing immediately inspires confidence thanks to its substantial weight and quality of manufacture.

CNC external barrel with quick removal

The CNC-machined aluminum outer barrel features a quick-change system inspired by real models. This feature enhances the replica's authenticity while highlighting the care taken in its design.

High-capacity electric magazine box

With its 4,000-round electric magazine, this replica is perfectly suited for long gaming sessions. Powered directly by the replica's battery, the system ensures a continuous supply to effectively support teammates without frequent interruptions for reloading.

Compatible with many tactical accessories

The 20mm Picatinny top rail allows for the mounting of optics, red dot sights, or magnifiers. Integrated RIS interfaces facilitate the installation of tactical lights or other compatible accessories as needed by the player.

Metal bipod for support fire

The folding steel bipod significantly improves stability during sustained fire. Once deployed, it allows the gunner to fully utilize their role while reducing fatigue during long games.

Performance tailored to milsim scenarios

Equipped with an **adjustable Hop-Up** system and a muzzle velocity of 400 to 450 FPS with 0.20g BBs, this platform is designed to offer consistent range and a significant rate of fire. Its full-metal M240W gearbox and LiPo-compatible components contribute to its reliability in the field.

- **Hop-Up Unit:** CNC machined aluminum
- **Top rail:** 20 mm Picatinny
- **Interface:** RIS for accessories
- **Bipod:** Folding steel with locking mechanism
- **Wiring:** Top with T-Dean connector
- **Compatibility:** T-Dean batteries
- **Charger:** Electric magazine box powered by the replica

An essential line for supporting roles

Designed for players seeking a real presence on the field, this support machine gun combines robustness, autonomy, and realism. Its black and wood aesthetic gives it a unique visual identity that never goes unnoticed during airsoft games.

FAQ

Is the battery included with the replica?

No. The battery and charger must be purchased separately. A compatible compact lithium battery is recommended.

What is the capacity of the supplied charger?

The supplied electric magazine box offers a capacity of 4,000 BBs, ideal for support missions.

Can a scope or red dot sight be installed?

Yes. The top 20mm Picatinny rail allows for the installation of compatible optics and accessories.
