A discreet 3D camouflage with optimal visibility of your surroundings.

The **JACK PYKE LLCS 3D Hide Net EVO** is a lightweight and silent **camouflage net** designed to quickly create an effective hide while maintaining excellent visibility thanks to its transparent mesh.

- **Camouflage system:** LLCS 3D
- **Pattern:** English Oak Evolution
- **Design:** 3D sheets fixed to a transparent mesh
- **Attachment:** Hanging loops at the four corners
- **Feature:** Lightweight and quiet
- **Material:** 100% polyester mesh
- **Dimensions:** 1.5 m x 4 m

Discreet camouflage for ambush and observation

Whether for **stalking** , wildlife observation, or wildlife photography, the **JACK PYKE LLCS 3D Hide Net EVO** allows you to quickly create a natural concealment zone. Its design faithfully reproduces foliage thanks to the 3D English Oak Evolution leaves, which effectively break up the user's silhouette in wooded environments.

Visibility is preserved thanks to the transparent mesh.

Unlike many traditional camouflage nets, this model uses a transparent mesh structure that allows for a wide field of vision. In practice, the ability to monitor one's surroundings without having to move or lift the net is immediately appreciated-a particularly useful advantage during long periods of waiting.

Rapid on-site installation

The loops at the four corners make it easy to attach to branches, stakes, or temporary blinds. Lightweight and compact when folded, it fits easily into a backpack, making it ideal for carrying on the go.

Designed for mobility

This net is particularly suitable for users seeking a portable camouflage solution. Its silent operation minimizes background noise during setup or adjustments, a detail that often makes all the difference when discretion is essential.

Additional features

- **Transport:** Compact when folded
- **Use:** Mobile hide or temporary post
- **Compatibility:** Matches JACK PYKE LLCS 3D clothing
- **Applications:** Hunting, wildlife observation, nature photography

FAQ

Is this camouflage net suitable for wildlife photography?

Yes, its lightweight design and transparent mesh allow you to remain concealed while maintaining excellent visibility of the scene to be photographed.

Can it be easily transported during a mobile stakeout?

Yes, the net folds up quickly and takes up very little space in a backpack or field equipment.

What equipment is this model compatible with?

It perfectly complements the clothing and accessories in the JACK PYKE LLCS 3D range, including camouflage outfits, gloves, balaclavas and caps.
