- **Facial mousse:** Spectra ProFlex hypoallergenic
- **Ear protectors:** Thermo-foam E-Vent
- **Mask base:** Rigid, high breathability
- **Strap:** Empire style with non-slip silicone band
- **Standard:** CE

A panoramic view to better anticipate the action

The **EMPIRE E-Vent Black Grey Paintball Mask** features a lens offering an impressive 270° field of vision. This panoramic design enhances peripheral vision and makes it easier to track opponents' movements without constantly turning your head-a valuable advantage during fast-paced, intense games.

High-performance anti-fog thermal screen

Equipped with a clear, double-glazed thermal lens, this mask effectively limits fogging. The optical quality is exceptionally high, providing a sharp, distortion-free view and ensuring lasting visual comfort in all playing conditions.

Vents Quick Change System

The renowned **Vents Quick Change** system allows you to replace the screen in seconds without using any tools. This feature is ideal for gamers who want to adapt their equipment to lighting conditions or quickly swap a screen between sessions.

Exceptional comfort thanks to Spectra ProFlex foam

The hypoallergenic Spectra ProFlex facial foam ensures a soft and comfortable contact with the face. It effectively conforms to the contours of the mask while minimizing pressure points. Even after several hours in the field, the comfort remains remarkable.

Optimized communication and ventilation

The mask's rigid skirt promotes excellent airflow while improving voice projection. This design allows for easier communication with teammates while maintaining effective ventilation. The E-Vent thermo-foam ear protectors offer a good level of protection while allowing you to remain aware of your surroundings.

A smaller profile for greater efficiency

Compared to some larger models, the E-Vent has a more compact profile. This reduced profile limits the surface area exposed to impacts while maintaining excellent coverage and safety for the player.

Additional features

- **Optics:** Distortion-free vision
- **Support:** Empire strap with non-slip silicone band
- **Ventilation:** Optimized air circulation
- **Weight:** Lightweight design for increased comfort

FAQ

Is the E-Vent mask suitable for experienced players?

Yes, its optical performance, comfort and lightness make it a popular choice for both leisure and competition.

Can the screen be easily replaced?

Yes, the Vents Quick Change system allows you to change the screen quickly without any special tools.

Does the mask limit fogging?

Yes, its double-glazed thermal screen is designed to effectively reduce fogging during gameplay.
