- **Compatibility:** Standard Hi-Capa upgrade parts
- **Supplied with:** Magazine, O-rings, return spring, Hop-Up tensioner, tools, cleaning rod and manual.

A Hi-Capa platform designed to evolve

The **ARCTURUS Vanguard 5" Hi-Capa GBB** was developed around an architecture offering excellent compatibility with most **Hi-Capa** parts available on the market. This design facilitates

customization and allows players looking to optimize their replica easy access to a wide range of aftermarket components.

Excellent gas efficiency

Every internal component has been designed to improve the efficiency of the **Gas Blowback** system. Optimized air volumes, combined with high-quality seals, allow for controlled gas consumption, noticeable consistency between shots, and a dynamic recoil sensation.

Optimized accuracy and range

Thanks to its 113mm inner barrel, high-performance **Hop-Up** system, and excellent airtightness, this replica delivers a consistent trajectory and effective range. Users will appreciate its consistent accuracy, both in fast-paced games and medium-range engagements.

Components designed to last

The mechanism incorporates ten **MIM steel** parts, renowned for their wear resistance. This robust design increases the lifespan of the components stressed during firing cycles and helps maintain consistent performance over time.

Ambidextrous ergonomics

The magazine release button is designed to be suitable for both right- and left-handed users. The **fiber-reinforced nylon** grip, featuring molded stippling, provides excellent grip even during demanding gameplay. Handling remains natural and comfortable throughout the entire game.

Next generation charger

The 31-round gas magazine features components made of **SEFP (Super Enhanced Formulated Polymer)** . The feed lips, follower, and base plate offer excellent impact resistance, contributing to the overall reliability of the assembly.

FAQ

Is this model compatible with standard Hi-Capa parts?

Yes. The 5-inch Vanguard was designed to offer high compatibility with many Hi-Capa upgrade parts available on the market, facilitating customization.

What's in the box?

The replica comes with a 31-round ambidextrous gas magazine, a set of O-rings, a recoil spring, a Hop-Up tensioner, the necessary tools, a cleaning rod and a user manual.

What is the intended use of this replica?

This GBB replica is designed for airsoft. Its excellent accuracy, robustness, and compatibility with Hi-Capa parts make it a suitable choice for both regular players and customization enthusiasts.
