A platform ready to receive an optic

The **ARCTURUS Vanguard 5" Hi-Capa GBB** features an **Optics Ready** slide and comes standard with the **ARS-1 red dot sight** . This configuration allows for rapid target acquisition while offering an immediately operational solution for players wishing to enjoy the benefits of a reflex sight without any additional modifications.

Maximum Hi-Capa compatibility

Designed around an architecture largely compatible with standard **Hi-Capa** parts, this model provides an excellent base for customization enthusiasts. The possibilities for upgrades are numerous, both in terms of internal components and external accessories.

A high-performance GBB system

The **Gas Blowback** mechanism benefits from an optimized design to improve gas efficiency. Carefully fitted internal components and excellent system sealing ensure a smooth cycle, consistent firing, and realistic recoil with every use.

Consistent accuracy and range

The 113mm internal barrel, combined with the **Hop-Up** system, ensures consistent trajectories. This combination provides consistent accuracy and effective range, both in dynamic gameplay and during medium-range engagements.

A robust construction

The mechanism incorporates ten **MIM steel** parts, selected for their wear resistance. This design improves the lifespan of the most stressed components and ensures reliable operation over time.

Ergonomics designed for all players

The ambidextrous magazine release button makes it easy to use for both right- and left-handed users. The textured **, fiber-reinforced nylon** grip provides excellent grip and comfort, even during long gaming sessions.

SEFP Reinforced Charger

The 31-round gas magazine uses **Super Enhanced Formulated Polymer (SEFP)** components in the feed lips, follower, and base plate. This design improves impact resistance while contributing to system reliability.
