A compact Duty Grade platform with compensator and Optics Ready bolt.

The **ARCTURUS Tempest 4.3" Hi-Capa DG™ GBB** pistol combines an **ORS Optics Ready** slide, a factory-installed **compensator**, and a **stabilized barrel** for increased accuracy. Compatible with **Tokyo Marui Hi-Capa** kits, this **airsoft** replica offers speed, reliability, and excellent upgrade potential.

- **Type:** GBB (Gas Blowback) pistol
- **Model:** Tempest 4.3" Hi-Capa DG™ Duty Grade
- **Total length:** 220 mm
- **Height:** 163 mm
- **Inner barrel length:** 105 mm
- **Weight:** 972 g
- **System:** Gas Blowback
- **Firing mode:** Semi-automatic / Safe
- **Bolt:** ORS Optics Ready
- **Compensator:** Original equipment
- **Canon:** Stabilized by compensator and chassis
- **Hop-Up Adjustment:** Compatible with BBs up to 0.36g with included tensioner
- **Compatibility:** Approximately 70% of Tokyo Marui Hi-Capa parts and 100% of sets are compatible.
- **Magazine:** Ambidextrous gas magazine, 31 rounds
- **Supplied with:** Mounting plate, 31-round gas magazine, O-rings, return spring, Hop-Up tensioner, tools, cleaning rod and manual.

A compact platform inspired by competition

The **ARCTURUS Tempest 4.3" Hi-Capa GBB DG™** combines a compact form factor with technical solutions designed to enhance performance in the field. Its **Duty Grade** architecture prioritizes speed, accuracy, and excellent compatibility with the **Hi-Capa** universe.

Compensator and stabilized barrel

The **compensator** is securely attached to the chassis to stabilize the outer barrel. This design minimizes unwanted movement during the firing cycle and improves shot consistency. The system also ensures smooth bolt operation, even when a dummy suppressor is installed.

An ORS bolt carrier ready to receive a scope

The **ORS Optics Ready** slide directly accepts most red dot sights on the market thanks to its compatibility with **RMR** , **RMSc** , and **DeltaPoint Pro** mounts. This configuration allows for easy customization of the replica to suit the player's preferences.

A fast and responsive mechanism

The **Gas Blowback** system features a fast-cycling bolt action, facilitating rapid-fire sequences. The responsive mechanics provide a dynamic feel while maintaining excellent reliability during **airsoft** games.

Compatible with heavy BBs

The included **Hop-Up** tensioner allows for the effective use of BBs up to **0.36g** . This feature facilitates optimized trajectory stability and improves accuracy during medium-range engagements.

A platform open to customizations

With a claimed compatibility of **70% of Tokyo Marui Hi-Capa parts** and **100% of Tokyo Marui Hi-Capa sets** , the **Tempest** provides an excellent base for enthusiasts looking to customize their replica using aftermarket components.

FAQ

Which optics are compatible with the ORS bolt head?

The ORS bolt is compatible with red dot sights using RMR, RMSc and DeltaPoint Pro imprints.

Is the compensator purely aesthetic?

No. In addition to its visual aspect, it contributes to the stabilization of the outer barrel and helps to maintain a smooth bolt cycle, even with a dummy sound moderator installed.

Is this replica compatible with Tokyo Marui Hi-Capa parts?

Yes. The manufacturer announces compatibility of approximately 70% of parts and 100% of sets with Tokyo Marui Hi-Capa standards, facilitating customizations.
