A tactical design conceived for customization

With its modern design inspired by tactical platforms, this **air rifle** offers an immediately excellent grip. The three **Picatinny rails** allow for the mounting of a scope, red dot sight, light, or other compatible accessories, depending on the shooter's needs.

Rifled barrel and Break Barrel operation

The **Break Barrel** system ensures simple and reliable cocking. Its **rifled barrel** optimizes the stabilization of 4.5 mm pellets for greater consistency during target shooting sessions. It is designed exclusively for use with **diabolo pellets** , not steel BBs.

Comfortable ergonomics

The **M4-style telescopic stock** allows for quick adjustment of the weapon's length to suit each user's physique. The flip-up sights remain discreet when folded down while providing rapid target acquisition when raised.

Complete equipment from the outset

The wraparound muzzle brake enhances the overall tactical aesthetic, while the **Fire/Safe** selector and manual safety ensure intuitive operation. The dummy magazine provides a realistic finish without interfering with the rifle's mechanical function.

For recreational shooting

Compact, lightweight, and easily customizable, this rifle is perfectly suited for **recreational target shooting** . Its balance and ergonomics allow you to fully enjoy long sessions while maintaining good user comfort.

FAQ

What projectiles should be used with this model?

This rifle uses only 4.5 mm (.177) caliber pellets. Steel shot must not be used.

Can a scope or a red dot sight be installed?

Yes. The various Picatinny rails allow the mounting of optics and many compatible accessories.

What kind of maintenance should be planned?

Regular cleaning of the barrel, checking the fixing screws and storing in a dry place will help to maintain the performance of the rifle over time.
