A 2J spring-powered replica equipped for precision shooting on airsoft fields.

The **Well Pro MB02D BK airsoft replica** is spring-powered with manual cocking for each shot. Its stated power of 2.0 J corresponds to a velocity of 140 m/s with 0.20g BBs. The **adjustable metal hop-up** allows you to fine-tune the trajectory depending on the BB used and the playing conditions. The metal slide and barrel are paired with a durable plastic frame and stock. Measuring 970 mm in length and weighing approximately 2,400 g, this replica comes fully equipped with a 3-9x40 variable magnification metal scope and a folding metal bipod. These two accessories facilitate aiming and stabilization during firing from a distance. A 30-round spring-loaded magazine completes the package.

- **Color:** black

An airsoft replica with manual cocking

The **Well Pro MB02D BK** must be cocked before each shot. This spring-powered action requires neither gas nor a battery. The **adjustable hop-up** allows you to modify the spin applied to the BB to adjust its trajectory.

A setup equipped for stationary shooting

The **MB02D airsoft sniper rifle** comes with a 3-9x40 scope. Its variable magnification helps adjust the sight picture to the engagement distance. The folding metal bipod provides support when firing from a stable position and folds away for easy movement around the field.
