PG1099	WELL G196 C96 WWII CO2 Blowback airsoft pistol black	Vente libre	30.5	CO2	99.00 € incl. tax

Airsoft replica of the famous Mauser C96, with metal construction, CO2 propulsion, and a blowback system for realistic shooting sensations.

The **WELL G196 C96 WWII** is a **CO2 airsoft pistol replica** inspired by the famous Mauser C96, a historical weapon recognizable by its distinctive silhouette and magazine located in front of the trigger. Its **metal construction**, black finish, and stated weight of approximately 1.4 kg give it a particularly realistic appearance, appreciated by collectors and enthusiasts of historical replicas. Powered by a **12g CO2 cartridge**, this airsoft pistol features a **semi-automatic blowback** mechanism, replicating the movement of the slide during firing. It fires 6mm BBs and has a total length of 30.5 cm. Its gas-powered operation allows for rapid-fire action without manual reloading, while maintaining the iconic aesthetics of the C96.

- **Advertised speed:** 94 m/s (approximately 310 FPS)
- **Energy consumption (stated):** 0.88 J according to a supplier's datasheet

- **Total length:** 305 mm
- **Advertised weight:** approximately 1.4 kg
- **Picatinny rail:** no
- **Color:** black

An airsoft replica of the legendary Mauser C96

The **WELL G196 C96 WWII** replicates the aesthetics of the famous **Mauser C96** , a German semi-automatic pistol that appeared at the end of the 19th century. Recognizable by its magazine positioned in front of the trigger guard, its elongated barrel, and its distinctive grip, the C96 has become a benchmark among historical firearms.

This airsoft replica replicates the distinctive lines of the original model in a black finish. It is an interesting piece for enthusiasts of historical military replicas, reenactments, and collections dedicated to 20th-century weapons.

A metal construction for added realism

The **WELL G196 airsoft pistol** features a metal construction that helps replicate the look and feel of a historical pistol. Its stated weight of approximately **1.4 kg** and its length of **305 mm** further enhance this impression of realism.

The C96's distinctive silhouette, with its elongated barrel and rectangular receiver, sets it apart from modern airsoft pistols. Its black finish completes its classic appearance.

Semi-automatic CO2 operation with blowback

The **WELL G196 C96** operates using a **12g CO2 cartridge** that powers the propulsion mechanism. This system allows it to fire 6mm airsoft BBs without a battery or manual cocking between shots. Its **blowback** mechanism replicates the movement of the slide with each BB firing, providing an added mechanical feel. The semi-automatic operation allows for a shot to be fired with each pull of the trigger.

A historical replica for C96 enthusiasts

With its design directly inspired by the **Mauser C96** , the **WELL G196** stands out from contemporary airsoft replicas. It is particularly suitable for enthusiasts of historical models looking for a functional reproduction using 6mm BBs.

Its CO2 Blowback system and metal construction allow you to rediscover some of the mechanical sensations associated with old pistols, while using non-pyrotechnic propulsion.
