An organized MOLLE pouch that keeps equipment accessible while traveling.

The **Corso Dagger MK6 pouch** offers organized storage for various gear on a MOLLE-compatible platform. Made primarily of Multicam polyester, it measures 31 x 19 cm. Its **laser-cut MOLLE** system and six rear straps with metal snaps ensure a secure attachment to tactical equipment. The two-way zipper allows for easy opening and access to the main compartment. A second compartment separates smaller accessories for quick retrieval. The external elastic cord adjusts the load and helps minimize shifting of contents. This design makes the **Dagger MK6** a functional solution for organizing gear during demanding training and deployments.

- **Brand:** Corso

A MOLLE pouch for organizing your gear

The **Corso Dagger MK6 Multicam** combines a main compartment with a second space for smaller items. This organization allows you to distribute your gear and find accessories more easily during training or travel.

A stable attachment to MOLLE platforms

The **Laser Cut MOLLE** system allows the pouch to be integrated into various compatible surfaces. Its six rear straps are equipped with metal snap buttons to keep the Dagger MK6 in position while the user is moving.

Two-way access and adjusted loading

The two-way **zipper allows the contents to be opened from either** direction. The external elastic cord further enhances organization by allowing for adjustment and more secure packing.

FAQ - Corso Dagger MK6 Multicam Pouch

Where should the Dagger MK6 be placed on a plate carrier?

The pouch can notably be mounted on the back panel of a plate carrier equipped with a compatible MOLLE interface.
