- **Case:** Black ABS
- **Lock:** keyboard lock
- **Dimensions:** 58 x 122 x 34 mm
- **Weight:** 123 g

A versatile PMR446 radio for outdoor activities

The **Midland G7 Pro Black** is ideal for groups participating in hikes, airsoft games, climbing sessions, or hunting activities. Its **85 channels** combine 16 PMR446 channels and 69 LPD channels. The 38 CTCSS tones and 104 DCS codes facilitate the coordination of multiple groups using the same communication area.

Dual PTT and power management

The **dual PTT button** provides direct access to high or low transmission power. This allows the user to select the appropriate level for communication conditions and limit power consumption when full power is not required. The VOX function also enables voice-activated transmission.

Clear readability and practical field functions

The large backlit LCD screen ensures quick reading of the channel and settings. Scanning searches for active transmissions, while dual watch allows monitoring two channels. Vibracall calling adds a vibration alert, and keypad lock prevents unintentional setting changes.

Compact format and IPX2 protection

The black ABS casing has an IPX2 rating for water splash resistance. With dimensions of 58 x 122 x 34 mm and a weight of 123 g, the unit remains compact and can be worn on a belt using the included clip.

PMR446 communications without individual license

PMR446 channels allow use without an individual license. The advertised range can reach 10 km, but this varies depending on terrain, obstacles, buildings, and usage conditions.

FAQ - Midland G7 Pro Black

What power sources can the G7 Pro Black receive?

The case accepts Ni-MH batteries, alkaline batteries, rechargeable batteries and an optional 1200 mAh lithium pack.

What is the benefit of the optional lithium pack?

The 1200 mAh lithium pack makes it possible to lighten the walkie-talkie by about 20%.

What is the purpose of the Side Tone function?

The Side Tone function eliminates the noise heard at the end of each transmission.

What type of jack does this walkie-talkie have for audio accessories?

The Midland G7 Pro Black has a two-pin Midland accessory socket.
