LO610	Loader Rotor R2 Blue Ice	Vente libre	209.00 € incl. tax

Product Details:

- Ball capacity adjustable on the fly 200/260 balls
- 15% wider bead feed and RAPID-RELEASE-SAFEGUARD system
- Reload warning system
- Battery charge indicator • Dynamic Force Control
- Disassembly without tools
- Spring-loaded inner tray
- Better power reliability
- Transmission voltage adjustment
- Telescopic hull
- Power supply – 3 AA batteries
- Weight 500 gr (1.1 lbs) (without batteries)
- Rotor Feed Patented Technology

The new DYE Rotor R2™ patent is part of the tradition of the most important innovations in the technological evolution of loaders. The R2™ represents the fusion of simplicity with incredible feed rates, reliability and the first variable capacity, on-the-fly loader on the market. Thanks to constant feedback from Pro players and our customers, the engineering team at DYE has meticulously redesigned and modified the Rotor™ with a revolutionary approach to loader technology. The R2™ includes a revolutionary and particularly innovative variable capacity (patent pending), allowing the player to choose a ball capacity ranging from 200 to 260 balls, on the fly.

This without the need for any additional tools, shells or parts. The patented quick reloading cover incorporates the fastest and most intuitive changing system on the market, allowing you to choose in the blink of an eye between the DYE Quickfeeds™ and the traditional polycarbonate cover. The ball feed is 15%

wider than the first version, for even faster and more efficient reloading. The new R2™ card programming offers the first patented Reload alert system on the market. The new patented dynamic control of the feeding force also guarantees that the propulsion of the R2™ ensures constant feeding, while allowing the use of the most fragile balls, thanks to an adjustment system.

Recognized quality, combined with proven consistency, have made the DYE Rotor the obvious choice for players around the world. The Rotor R2™ is a new step in the technological evolution of loaders and offers serious players the performance that is essential for victory. The new DYE R2™ is the choice of champions.
