Provide 99% protection against UV-A and UV-B rays.

ASG safety glasses offer reliable protection and excellent visual comfort for **airsoft** , recreational shooting, and outdoor activities. Their ergonomic design and high-quality lenses ensure clear vision while minimizing fogging.

- **UV protection:** 99% UV-A and UV-B
- **Optics:** High clarity without distortion
- **Ventilation:** Anti-fog ventilated chassis
- **Curvature:** 9.75 base lenses for enhanced side protection
- **Protection:** Glare reduction
- **Standards:** ANSI Z87.1-2003 High Impact
- **Certification:** CAN/CSA Z94.3-07
- **Certification:** CE EN166
- **Versions:** Black with black lenses, black with clear lenses, black with yellow lenses, and transparent
- **Uses:** Airsoft, sport shooting, outdoor

Eye protection designed for the field

During **airsoft** games, the quality of eye protection makes all the difference. These **ASG protective goggles** offer effective protection against impacts, wind, and airborne particles while maintaining excellent peripheral vision thanks to their 9.75 base curved lenses.

Clear and distortion-free vision

High-quality lenses ensure a clear and precise image without any bothersome visual distortion. In practice, this improves comfort during long sessions and allows you to maintain good visibility of the terrain, even during fast movements.

Anti-fog ventilated system

The top of the frame is ventilated to promote airflow and limit condensation. This is a detail that gamers quickly appreciate, especially during dynamic games or when temperatures fluctuate.

Protection against glare and UV rays

These glasses filter 99% of **UV-A** and **UV-B** rays while reducing excessive glare outdoors. Depending on the version chosen-black, clear, or yellow lenses, or a transparent frame-they easily adapt to different lighting conditions.

Recognized safety certifications

The glasses exceed the **ANSI Z87.1-2003 High Impact** resistance requirements and also have **CAN/CSA Z94.3-07** and **CE EN166** certifications, guaranteeing compliance for sports and tactical uses.

- **Available versions:** Black/black lenses, black/clear lenses, black/yellow lenses, transparent
- **Lens type:** High optical clarity
- **Structure:** Ventilated frame
- **Side protection:** Curved lenses, base 9.75
- **Use:** Airsoft, outdoor, recreational shooting

FAQ

Are these glasses suitable for airsoft?

Yes, these protective glasses are designed for airsoft and meet several impact resistance standards.

Do glasses limit fogging?

Yes, the integrated ventilation system promotes air circulation to effectively reduce condensation.

What versions of lenses are available?

The glasses are available with black, clear, yellow lenses as well as in a transparent version depending on the needs and lighting conditions.
