- **Power source:** CO2
- **Internal barrel length:** 102 mm
- **Weight:** 555 g
- **Color:** Black
- **Rail:** Lower Picatinny
- **Special feature:** Unique serial number

An affordable and effective CO2 pistol

Designed for players seeking a simple and reliable replica, the **ASG Sport 106** uses **CO2** cartridges, ensuring consistent power and excellent battery life. In practice, this means fewer gas refills and remarkable consistency shot after shot.

Non-blowback system: autonomy and discretion

The **non-blowback** design reduces CO2 consumption and minimizes moving parts. The result: improved mechanical longevity and quieter operation - ideal for training or extended gaming sessions.

Handling and ergonomics

Compact and well-balanced (555 g), this model offers intuitive handling. Illuminated sights facilitate target acquisition, even in low-light conditions. The lower **Picatinny** rail allows for the addition of accessories such as a tactical light.

Performance adapted for airsoft

With a power of 1.3 joules and a velocity of 114 m/s, this replica is perfectly suited for versatile use. The **fixed hop-up** ensures a consistent trajectory without the need for adjustment - a real plus for beginners.

Equipment and compatibility

- **Compatible charger:** Ref. 15526
- **Compatible holster:** Ref. 19639
- **Ball type:** Standard plastic BB
- **Series:** DiscoveryLine

FAQ

Is this pistol suitable for beginners?

Yes, its non-blowback operation and fixed hop-up make it very simple to use, without complex adjustments.

What type of gas does he use?

It operates with CO2 cartridges, offering good autonomy and constant power.

Can accessories be added?

Yes, a lower Picatinny rail allows for the installation of a compatible lamp or laser.
