The reference for civilian and military red dot sights.

Aimed at hunters seeking optical enhancements within a traditional design, the Aimpoint® Hunter Series meticulously fuses classicism and modernity. This range is distinguished by a proven optical structure, enriched by an innovative two-ring mounting system. It is also characterized by its discreet and silent light intensity adjustment buttons, a feature exclusive to this line. These digital controls, designed for easy handling, allow for quick and precise adjustment, with or without gloves, providing an unprecedented user experience in the hunting industry.

- Digital control on the top of the box.
- Particularly robust anodized aluminum body.
- Large lenses for more brightness.
- New super economical ACET diode.
- Mounting on standard spectacle bases.
- 2 MOA red dot for greater precision.
- 12 levels of light intensity.
- Adjustment of the turrets using the caps.
- Unlimited field of vision and paralax-free, neutral.
- The proverbial weather resistance.
- Delivered with a 3V Lithium battery type CR2032.

- Adjustment key

The long and short hunter red dot sight are part of the new generation of Aimpoint hunting sights designed for standard or high powered rifles. It benefits from the latest technological advances of Aimpoint.
