A powerful and economical compact CO2 replica for airsoft.

The **ASG CZ 75D Compact** is a compact and high-performance non-blowback CO2 airsoft pistol designed to offer power and extended operating time. Its design, inspired by the CZ model, guarantees excellent handling.

- **Caliber:** 6 mm BB
- **Energy:** 1.59 joules
- **Velocity:** 126 m/s (413 fps)
- **Mode:** Non-blowback
- **Hop-up:** Adjustable
- **Magazine capacity:** 16 rounds
- **Power source:** CO2
- **Internal barrel length:** 94 mm
- **Weight:** 625 g
- **Structure:** Full polymer (FPV)
- **Rail:** Lower Picatinny
- **Function:** Dual action
- **Special feature:** Unique serial number

A compact replica inspired by a classic

Directly derived from the famous Czech pistol, the **ASG CZ 75D Compact** retains the lines and ergonomics of the original model. Its compact size makes it particularly maneuverable in the field, while maintaining good stability when firing.

Non-blowback CO2 system: maximum efficiency

The **non-blowback** design concentrates all the CO2 energy into propelling the BBs. The result: high power (up to 126 m/s) and significantly longer battery life. This is exactly the kind of replica that's perfect for long, unrestricted sessions.

Adjustable hop-up for greater accuracy

Unlike entry-level models, this pistol features an **adjustable hop-up** . This adjustment allows you to optimize the trajectory of the BBs according to their weight - a real advantage for gaining range and consistency.

Ergonomics and modularity

Its **full polymer** construction makes it lightweight (625 g) while ensuring good durability. The integrated **Picatinny** rail allows for the addition of accessories such as a light or laser. The **double-action** mechanism offers quick and easy operation.

Practical features for everyday use

- **Silent threading:** Compatible with sound moderators (concealed threading)
- **Included tool:** Hop-up adjustment and CO2 cartridge replacement
- **Official license:** CZ Ceska Zbrojovka
- **Series:** SportLine

FAQ

Is this model suitable for starting out in airsoft?

Yes, thanks to its simple non-blowback operation and high battery life, it is perfectly suited to both beginner and experienced players.

Can the accuracy of the shot be adjusted?

Yes, the adjustable hop-up allows you to adjust the trajectory of the BBs to improve range and accuracy depending on the type of BB used.

What accessories can be added?

The Picatinny rail allows for the mounting of a light or laser. The threading also allows for the addition of a compatible sound moderator.
