A replica inspired by sporting pistols

The **ASG MK I Gas 6mm Black** captures the spirit of the famous MK pistols in a simple and effective airsoft version. Its elongated design and natural balance immediately provide a pleasant feeling of stability. It's exactly the kind of replica that's appreciated for **target shooting** and recreational sessions focused on precision.

Non-blowback gas operation

Thanks to its **non-blowback** system, this replica prioritizes consistency and autonomy. The absence of a moving slide reduces gas consumption while minimizing energy loss. In practice, this

results in consistent firing and quieter operation.

Adjustable hop-up for improved accuracy

The **adjustable hop-up** system allows you to adapt the trajectory of the BBs according to the weight used. This adjustability improves shooting comfort and promotes better stability at medium range. With a power of 1.32 joules and a velocity of 115 m/s, the MK I offers dynamic performance for recreational shooting.

Lightweight and easy to handle

Weighing only 550g, this replica remains easy to handle and comfortable during long sessions. Its 120mm inner barrel contributes to the overall stability, while its design, inspired by sporting rifles, provides a natural grip.

17-round magazine and intuitive operation

The 17-round gas magazine offers a capacity suitable for recreational shooting. Simple to use and quick to reload, it helps make this replica particularly accessible to beginners and casual users alike.

Additional features

- **Range:** SportLine
- **Type of marbles:** Plastic BBs
- **Style:** MK1 / MK2
- **Charger reference:** 14843
- **Use:** recreational airsoft
- **Color:** black

FAQ

Does the ASG MK I have a blowback system?

No, this replica operates without blowback in order to improve gas autonomy and the consistency of shots.

Is the hop-up adjustable?

Yes, the adjustable hop-up allows you to optimize the trajectory of the BBs depending on the type of ammunition used.

Is this replica suitable for recreational precision shooting?

Yes, its 120mm inner barrel, adjustable hop-up and good consistency make it a suitable model for recreational target shooting.
