- **Mounting:** Quick assembly via steel axle
- **Legs:** Foldable and extendable
- **Length with legs folded:** 21 cm
- **Length with feet extended:** 25 cm
- **Weight:** 450 g
- **Stability:** Compensation for uneven terrain
- **Pads:** Non-slip rubber
- **Use:** Airsoft precision shooting

A bipod designed for AW .308 sniper platforms

The **ASG AW .308 Bipod** was developed to complement the **AW .308** series airsoft sniper replicas. Once installed, it immediately improves shooting stability and comfort during observation or stationary firing.

Folding and extendable legs

The bipod's legs are both **foldable** and **length-adjustable** , allowing for quick adaptation of the shooting position to suit the terrain or desired height. At 21 cm when folded and 25 cm when extended, this model maintains an excellent balance between compactness and stability.

Quick fixing via steel axle

The quick-mount system uses a **steel pin** that locks into the front of the replica's handguard. This configuration ensures a secure attachment while facilitating the installation and removal of the bipod.

Excellent stability on the ground

The non-slip rubber feet ensure good grip on hard or uneven surfaces. The bipod also allows for slight compensation of terrain imperfections to maintain a stable shooting position.

An essential accessory for precision shooting

For players focused on sniper roles, this type of accessory offers a significant improvement in comfort and realism. Once deployed, the bipod facilitates accurate shots at medium and long range while also enhancing the replica's stability.

- **Compatibility:** AW .308 Airsoft Sniper
- **Assembly:** Quick-release steel axle
- **Feet:** Adjustable and foldable
- **Folded length:** 21 cm
- **Extended length:** 25 cm
- **Weight:** 450 g
- **Pads:** Non-slip
- **Use:** Airsoft precision shooting
- **Construction:** Robust structure

FAQ

Is this bipod compatible with all sniper rifles?

This model is designed specifically for compatible AW .308 airsoft sniper replicas.

Are the bipod feet adjustable?

Yes, the legs are extendable and foldable to easily adapt the shooting position.

Is the bipod stable on uneven terrain?

Yes, the anti-slip pads and the compensation system allow for good stability on different surfaces.
