## A realistic, accurate and well-controlled full metal CO2 airsoft revolver.

The **ASG Dan Wesson 8"** is a full metal CO2 airsoft revolver, offering realism and precision with controlled power. This reduced-velocity version ensures versatile and controlled use.

- **Caliber:** 6 mm BB
- **Energy:** 1 joule
- **Velocity:** 100 m/s (328 fps)
- **Mode:** Non-blowback
- **Capacity:** 6 shots
- **Power source:** CO2 (12g)
- **Function:** Dual action
- **Construction:** Full metal (FMV)
- **Weight:** 1040 g
- **Color:** Steel Gray
- **Special feature:** Unique serial number

### An impressive full-metal revolver

From the moment you pick it up, the **ASG Dan Wesson 8"** makes a statement. Its **full metal** construction gives it a realistic weight (over 1 kg) and an immediate feeling of robustness. This is clearly a replica that prioritizes realism and the pleasure of handling.

### Precision and long barrel

Its 8-inch barrel promotes greater stability and increased accuracy. Combined with an adjustable rear sight, it allows for fine-tuning the shot to suit individual preferences. In practice, this is a real advantage for those who enjoy stationary shooting or plinking.

### **Practical and self-contained CO2 system**

**CO2** operation ensures consistent firing. The 12g cartridge is housed in the stock and easily replaced thanks to a sliding opening system. The **non-blowback** mode optimizes battery life while minimizing mechanical wear.

### **Realistic experiment with individual sockets**

Each BB is inserted into a dummy casing, which is then placed in the rotating cylinder. This mechanism faithfully replicates the experience of firing a classic revolver. The included speedloader allows for rapid reloading—a detail that makes all the difference in the field.

### **Included equipment and modularity**

- **Cartridge cases:** 6 cartridges included
- **Power-down shells:** For power reduction
- **Speedloader:** Fast reloading
- **Tactical rail:** Removable for accessories

### **FAQ**

#### **Is this version less powerful than other Dan Wesson models?**

Yes, this version has a reduced velocity (1 joule), which makes it more suitable for certain terrains or specific uses.

#### **How does the marble loading process work?**

Each BB is inserted into an individual casing within the cylinder, providing maximum realism. A speedloader is included for easy reloading.

#### **Can accessories be added?**

Yes, a removable tactical rail is included to install compatible accessories as needed.
