LO617	Loader Proto Primo	Vente libre	26.00 € incl. tax

**The sturdy, high-capacity shell holds 200 balls and is designed for easy maintenance and servicing.**

The Primo loader, whose patent is currently being validated, is the first loader of its kind.

It helps reduce pressure on the paintballs, reducing the risk of paintball jams and improving feed speed. Powered by minimal marker agitation, the Primo paintball feeder allows paintballs to pass through as you shoot, for a consistent vertical feed. It comes with a clear spring-loaded cover for easy reloading.

The wide opening works perfectly with Proto Alpha pots, for the ultimate ball transport system.

The patent pending proto primo loader is one of the first of it's kind with a positive shelf designed to relieve pressure on paintballs reducing jams and increasing feed rate.

Powered by minimal agitation of the gun, the primo loader helps sort and funnel as you shoot for a consistent vertical feed. Comes with a clear spring loaded lid for easy reloading.

The large opening works well with proto alpha pods for the ultimate paint carrying system. Large capacity durable shell holds 200 paintballs and makes for ease of cleaning and maintenance.
