A compact tactical flashlight for airsoft platforms

The **ASG Super Xenon Flashlight Tactical** was designed to effectively complement pistols equipped with an accessory rail. Its compact size maintains excellent maneuverability while providing immediate illumination during movement or gameplay in dark environments.

Light output of 100 lumens

With a power output of **100 lumens** , this lamp provides effective lighting for quickly identifying an area or improving visibility at close range. This level of brightness is perfectly suited to tactical airsoft setups.

Quick activation at the rear

The switch located at the rear allows for quick activation and deactivation of the light. This placement facilitates intuitive use when handling the replica.

Compatible with accessory rails

The light attaches directly to pistols equipped with a **tactical rail** . Once installed, it remains compact and perfectly integrated into the platform.

Belt clip included

A belt clip is provided for carrying the lamp when it is not mounted on a replica. This improves practicality during transport or storage.

- **Power:** 100 lumens
- **Power supply:** 2 CR123A batteries
- **Mounting:** Accessory rail
- **Control:** Rear switch
- **Accessory:** Belt clip included
- **Use:** Tactical airsoft
